Neuro-Ophthalmology (What Do I Do Now)

Synopsis

Neuro-ophthalmology is a field of medicine that touches on every subspecialty in neurology, but has an undeserved reputation as a branch of knowledge that is difficult to learn and practice. Many neurologists and ophthalmologists do not receive sufficient exposure to neuro-ophthalmology during their residencies, and are uncomfortable diagnosing and treating patients with neuro-ophthalmic problems. Authored by neuro-ophthalmologists whose careers span three generations in the field, Neuro-Ophthalmology helps clinicians evaluate and manage patients with neuro-ophthalmic problems. This "curb-side consult" approach is divided into five sections: afferent (visual) disorders; efferent (eye movement) disorders; eyelid disorders; pupil disorders; and combination syndromes. Based on the most current scholarly evidence and filled with practical advice, Neuro-Ophthalmology provides the answers to "what do I do now?"

Book Information

Series: What Do I Do Now

Paperback: 208 pages

Publisher: Oxford University Press; 1 edition (November 1, 2011)

Language: English

ISBN-10: 0195390849

ISBN-13: 978-0195390841

Product Dimensions: 8.5 x 0.5 x 5.5 inches

Shipping Weight: 11.5 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (4 customer reviews)

Best Sellers Rank: #918,608 in Books (See Top 100 in Books) #148 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Ophthalmology](#) #169 in [Books > Textbooks > Medicine & Health Sciences > Reference > Drug Guides](#) #234 in [Books > Medical Books > Medicine > Surgery > Ophthalmology](#)

Customer Reviews

Una manera pr ctica de aprender y reforzar conocimientos. Una serie muy recomendable

Best synopsis of neuro-ophthalmology I have seen great for Optometry Boards review and to have for a quick reference in the lane

Clinical case presentations introduced each chapter of the book making it interesting and precise.

Mandatory for neurologists!
