Common Core: Complex Issues In Text

Synopsis

Centered around Common Core State Standards, Common Core: Complex Issues in Text is designed to help students read both fiction and nonfiction with a critical eye, develop reasoned opinions, and defend ideas with specific examples. Practice pages, student charts, graphic organizers, research challenges, discussion starters, writing prompts, games, group activities, and recommended reading lists enable students to practice: uncovering the author's purpose; spotting propaganda and bias in nonfiction; sorting credible from unreliable narrators in fiction; seeing one event from multiple points of view; building arguments for informal debates; and using inference and connotation to discover underlying meanings. Mark Twain Media Publishing Company specializes in providing captivating, supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character. Mark Twain Media also provides innovative classroom solutions for bulletin boards and interactive whiteboards. Since 1977, Mark Twain Media has remained a reliable source for a wide variety of engaging classroom resources.

Customer Reviews

Teaching how to read complex text just got a lot easier for middle school teachers. This book is full

of reproducibles to help students understand such concepts as bias, point of view, inference, and credibility. Use this book to introduce and begin work on these topics or to review them. The book contains ideas for games and group activities and includes recommended reading lists.

It's okay resource. Purchased this resource and "Common Core: Elements of Literature" to supplement Rod & Staff English curriculum for 7th & 8th graders. Really searched and searched for textbook similar in structure to R&S on literature but never found one so settled on these two. What you get are worksheets that have a bit of text explaining a concept with questions...not a good way to learn a concept from my way of thinking..but it will do if you supplement with other resources.

Not quite what I expected, but good ideas

Happy

Part of my regular teaching routine now.
