Plato: 'The Republic' (Cambridge Texts In The History Of Political Thought)

Synopsis

This is a completely new translation of one of the great works of Western political thought. In addition to Tom Griffith's vivid, dignified and accurate rendition of Plato's text, this edition is suitable for students at all levels. It contains an introduction that assesses the cultural background to the Republic, its place within political philosophy, and its general argument; succinct notes in the text; an analytical summary of content; a full glossary of proper names; a chronology of important events; and a guide to further reading.

Book Information

Series: Cambridge Texts in the History of Political Thought

Customer Reviews

This is more of a review of the translation, as opposed to the text itself. The Republic is a classic, and like Shakespeare, or the Mona Lisa, needs no review or comment. This is not to say that I agree with everything Socrates-Plato says, but that this book lifts you higher, weather you agree or disagree. Tom Griffith deserves an award for rendering a bouncy translation that makes the text come alive. This translation ranks among my favorites. Its strength is that it renders the Greek into a colloquial, conversational English, as opposed to the stiff and ossified academic dronings that make higher education such a joy! He follows the pattern set by Seamus Heany ("Beowulf), and J. B. Phillips ("The New Testament in Modern English"), where the language illuminates the text, and engages your mind. Too often, the translators' end product-the language-gets in the way of the ideas and joys of the text. I was able to plow through this book in a fortnight because the language

flowed so well. I wish we could get more translators to get the gift of tongues, and to render these classic texts into the tongue of angels!

Excellent translation.
