Introduction To Community-Based Nursing Fifth Edition Testbank

Synopsis

Do you ever feel overwhelmed by concepts in Community Health Nursing? Do you ever feel that it is just a small part of the entirety of nursing concepts yet you need to pass the subject to finish your nursing program? Do you consider this as your Achillesâ™ heel in passing NCLEX? Community nursing is not a small matter at all. With the adaptive nature of the NCLEX exam, it may happen that you may incorrectly answer 2 to 3 questions on this subject and subsequently find yourself lost answering many similar questions as the exam progresses. Donâ™t get lost! Be ready and put on your best armor for success. This test bank will help you significantly because it highlights important concepts that will help you understand community nursing. The quality of this test bank is assured because community health nurses themselves compiled the questions. The test bank has undergone the strictest development and evaluation processes so that accuracy and significance are ensured. The test bank reveals concepts from the book, *Introduction to Community-Based Nursing, Fifth Edition* • by Roberta Hunt. The questions and rationales have been streamlined to include most important concepts to remember. It also includes the latest NCLEX question structure, the SATA (Select All That Applies) questions to further enhance your test-taking skills. The book itself develops clinical reasoning that will be helpful in these times when home health in the community setting gains momentum as stay in acute care settings is shortened. It also gives a fair emphasis on cross-cultural care. Furthermore, it provides a great insight into how the family influences individual care. Whether you are a student taking this subject, a graduate aspiring to be a professional or already a registered nurse looking into community nursing as a career path, this test bank is a powerful tool to help achieve your goals. It would give you an edge over others in terms of readiness and critical thinking skills. Get this test bank now!
