## Customer Reviews

I love this book - I m able to write down daily events or daughters funny sayings and I on't feel pressured to fill a page or write more. I also love how each page is a five year page - so in 5 years I can look at January 21 and see what happened the last five years. Does that make sense? I love this book and am so happy that I got one for Christmas - I think it would make a great gift for a new mom as well to record first meals etc...

What a cool concept! It only takes a few minutes to write an entry. Each page is labeled as the date and has 5 different spots for each year. Leave this on your nightstand and it can be the last thing you do before you turn in for the night. This would be a unique mothers day or birthday present for Mom. As others have noted it is small, please see my attached pictures to get a good idea of size.

I loved the idea of 5 years' worth one-liners to someday give to my son. I did not expect the book to be as small as it is... call me a fool for not reading the dimensions on here and getting out a ruler to see how big(small) it really is, but being that it's hardcover, the size + thickness makes it difficult to

open wide & write toward the middle/binding portion of the book. I guess the size corresponds with the "one line" idea, but when you can't read the last 3 words of that one line because you couldn't push the pen into the crease...what's the point, really?

Love it! This is a simple and convenient way to record day to day events. While I have the best intentions of recording my son's achievements and milestones, I have not always been able to manage these things. With this diary, you can record a few sentences daily to capture the most mundane of events or the firsts. Love it!

Because I love my One Line a Day book, I purchased this one for a dear friend as she was welcoming her first little girl into this world. I gave it to her as a gift so she could keep all the little (and BIG) memories in one place. I thought it would be cute and thoughtful. My only concern was that she already had one...and she did not. This was a huge win because she told me that she wanted one but never got around to getting it with so much going on around her. I am super glad she loved this as much as I did and I adore that she and the little one can look back five years from now and read all the memories together. Very awesome!! I think that anyone could get this little gem and make it worth while. It's never too late to capture the memories of life. Even if your little ones are older in age, grab one of these and start today. You will not regret it one bit!

It's small, like others have said, but the part I found strange is that it's set up so you write the same date every year on the same page. Instead of being set up like a five-year diary, it's set up so that you write Jan. 1 on the same page for five years in a row. So page one you write Jan. 1, 2015, then move to page 2 until the end of the year. In year two, you start back at the beginning and your notes for Jan. 1, 2016 will be directly below Jan. 1, 2015. (A little bit hard to explain; see photo.) I don't think it's an effective way to keep a journal. I think it will be confusing to read when you look back on five years worth of writing. Update: After having this a few weeks, I'm changing my review to one star. I feel the small amount of space given to write makes this journal useless. Even the date takes up part of the writing space. You are better to just get a free calendar and write in the spaces. This will end up in the yard sale pile with only a few entries for 90% of purchasers. Don't waste your money.

I haven't begun recording in this book, but am so excited to begin on date we've designated as a start date. I think this will be a hilarious and cute piece to look back on for many years to come as

we jot down our girls' antics over the next few years! The book is nicely bound, seems like it will withstand daily (hopefully) use over the next few years, and has a nice little ribbon to mark your spot each day. Since I haven't written in the pages yet, I'll update if there are any concerns once I'm using this to its potential. \*\*I would definitely recommend this for yourself or for a gift! \*\*

Great gift for Mom! I got this as a gift for my Mom. I also have the more original version, the One Line A Day five year memory book. From what I can tell, the only difference is that the "Mom" version is pink on the front. Everything else inside is the same-dates to remember pages, etc. I'm still happy with it, but I thought it might have a few cute pages like "children's birthdays" or something.
