I purchased 2 other maps (National Geographic and and International Travel Map) before going to Panama but I didn't find this one until I actually arrived. This one is far superior to the other two, especially when it comes to the city itself. The others don't give very much detail, but this map will keep you on track in the city. I'd consider this a "must have" for a trip to Panama City.

Good map. Used it often on our trip when planning which area of Panama we wanted to travel to next. The only complaint is the paper the map is printed on is thin. Frequent use required repair the paper seams with transparent tape.

While the National Geographic map is more topographic, this one complements it with city maps, especially Panama City as well as pictures & some helpful information. It's made in Panama which adds to it's value. Highly recommended.

Panama, Mapa Guia - Guide MapI looked at two other maps: "Panama" by ITMB Publishing, and the "Panama Adventure Map" by the National Geographic Society. The trouble with these two is that whilst the big map of the country is quite well laid out, there aren't much in the way of city maps. But the "Panama, Mapa Guia - Guide Map" has a number of city maps that are laid out well and look very useful; consequently I'm looking forward to using it when I visit later this year. Although there is a lot of Spanish in this map, the visual content outweighs the disadvantage for the "un poquito" Spanish-speaker!

I thought I was never going to find a map of Panama -- this is just what I wanted! Note: written in Spanish.
