Customer Reviews

I thoroughly enjoyed this book and the ideas it presented. The fact that our happiness is a direct result of our thoughts is very reassuring to me. It helps me to realize that I have control of what happens in my life. I highly recommend it to everyone and especially to those who feel that they are helpless in managing problems that they may incur.

Good ideas of finding happiness, but so far I'm almost at the end of the book and there is not much new here.
